

# 'APPY FRIDAY

Every Friday, the CDETB Curriculum Development Unit's librarian reviews an App that's suitable for use in education. This review looks at how the App could be used, likeable features and things to watch out for! Click on the image below.

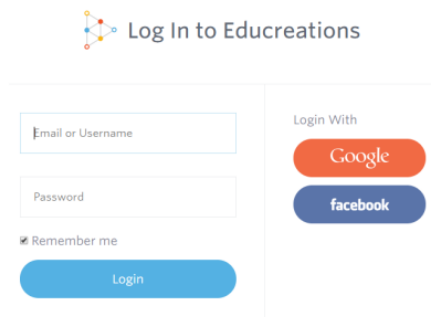

Happy sunny 'Appy Friday'! A new app reviewed by the @cdetbcd library: [cdetbcd.ie/cdetb-programm](http://cdetbcd.ie/cdetb-programm) ...

6:15 AM - 20 Apr 2018

Recent reviews include: Quizup, Photomath, Edpuzzle, Nearpod, Hopscotch, Educreations (a tool to help you design a lesson), Keep Appy (a mental wellness app), and Teach Learn Lead (a professional learning community for new teachers).

Photomath

Camera Calculator - Download Photomath for Android & iOS

Home Photomath APK Photomath for iOS Blog

Photomath is a camera calculator app that allows you to simply scan and solve mathematical equations. Photomath app is supported on Android and iOS. It is a wonderful app that makes calculation a lot simpler, easier and fun! If you are scared of mathematical calculation, then this app is for you.

All you need to do use this app is to open the camera, point it towards a maths problem and then see Photomath solve the question for you. It also provides you with step-by-step solutions to any equation.
